Brought to you by...

Shouldn't a home be both a place to rest your head and a rewarding investment? That has been Graywood's philosophy for over three decades. As a Toronto-based private investment management company that specializes in the development of real estate properties of exceptional quality, we have a keen eye on how and where people want to live, and we work hard to ensure that our purchasers are making the right investment, both personally and financially.

From our home base in Toronto, we have developed an impressive portfolio of single-family homes, townhomes, boutique mid-rise condo buildings,

and high-rise towers throughout North America. From the landmark Ritz Carlton Hotel and Residences, Toronto to notable communities like Ocean Club, The Mercer, Five St. Joseph, Peter and Adelaide, Scoop, and Scout, Wonder Condos, 250 Lawrence as well as Fish Creek Exchange, and The Theodore in Calgary, we believe in developing spaces that are not just optimized for life today, but built with a vision of a prosperous tomorrow. Because if a home is one of the biggest investments you'll ever make, shouldn't your real estate developer also be an investment expert? We think so. And that's why we're both.

For over 50 years, Phantom has played a key role in numerous prestigious projects in the Greater Toronto Area in the residential, commercial and industrial sector, helping shape the city's vital communities with exceptional projects. Family-run since inception, our first independent condominium project, 1001 Bay Street, was one of the most successful selling condominiums in the early 1990s.

Phantom was an investor in the iconic L-Tower Condominium, adjoining Meridian Hall (formally the Sony Centre for the Performing Arts) at Front and Yonge Streets. We then introduced our Jade Condominiums brand in 2010--a magnificent boutique residence in the upscale Bayview and Sheppard corridor. Following the success of the first Jade condominium, we launched its spectacular sequel, Jade Waterfront, bringing refreshing modernity to waterfront living in 2011. On the heels of this success, Phantom carried the momentum forward with Tea Garden Condominiums. Launched in 2014, Tea

Garden brings another brilliant boutique living space to the Bayview Village neighborhood.

Founded in 1977, S&A Developments is the asset management arm of Phantom. Our team's extensive portfolio includes managing over 2 million square feet of industrial and commercial leasing space throughout the GTA, spanning from Mississauga to Bowmanville. We provide unique value to our tenants through an active approach to leasing, maintenance, and an emphasis on relationship management. Our personalized leasing approach is tailored to each prospective client, with your interests and goals at the forefront of our strategy. We take great pride in the longevity of our tenant relations--some tenants have been with us for over 40 years.

Phantom's current projects include the sought-after Eight Cumberland, located at the prestigious Yonge & Cumberland intersection. Working alongside Great Gulf Homes, Phantom is bringing to

market a luxurious living space in the heart of Yorkville. Our latest partnership is with Graywood Developments to bring you JAC Condos in the vibrant neighborhood of Jarvis & Carlton with scenic views of Allan Gardens, steps away from Ryerson University.
